EX-KAISER ATTEMPTS TO END TROUBLES BY SUICIDE

LEIPSIC PAPER STATES THAT ATTEMPT FOLLOWED MENTAL DEPRESSION. MEMBER OF HIS SUITE PREVENTED.

(By the Associated Press)

LONDON, Dec. 10.—William Hohenzollern, former German emperor, has attempted to commit suicide, following a period of mental depression, according to the Leipsic Tageblatt, quoted in a Copenhagen dispatch to the Exchange Telegraph company.

A member of the former emperor’s retinue prevented Herr Hohenzollern from carrying out his intention and was wounded in so doing.

Kaiser Uneasy Over Position.

LONDON, Dec. 10.—William Hohenzollern has had several interviews at Amerongen with two German experts on international law, with whom he discussed his personal position, according to an Amsterdam dispatch to the Express.

It is understood that the former emperor is writing his autobiography and a history of his reign.

GOOD BYE, BOYS.

The S. A. T. C. is no more and the boys who composed the East Central unit are leaving for their respective homes. The News extends the best wishes of the city to these young men and hopes that one and all have reason to remember with pleasure their stay in the city. Had the war continued the members composing this unit would have given a fine account of themselves, but we are indeed glad that they were not called upon to go across but may return home and take up the arts of peace.

The order has gone out to clean the alleys and premises of the city. Every householder is expected to place accumulated trash in boxes where it can be easily picked up by the wagon when it begins its rounds. At this time it is especially urgent that everything be cleaned up for cleanliness of the greatest known preventive of disease. Mayor Kitchens says his ambition is a "cleaner town, bigger town and better town," and this is the first step toward realizing it.

While the German civilians in cities occupied by the allies are not being treated of the frightfulness that characterized the German occupation of Belgium and northern France, they are being treated to some of the annoyances that the people of the conquered sections were forced to submit to for four years. For instance, at Aix La Chappelle the same rules have been laid down that the Germans issued at Brussels. A German civilian must get off the sidewalk and doff his hat when a Belgian officer approaches and the city had to surrender some of its leading men as hostages for the good behavior of the population. Naturally things like this are galling to the Teutonic nature which considers the Germans the chosen people of earth, but turn about is fair play and it is the turn of the Belgians now.

That the citizens of Ada are fully alive to the opportunity for spreading the city over a larger portion of the landscape, is proved by the great success of the Chamber of Commerce membership campaign. Everybody is anxious to join and in providing funds sufficient for an effective campaign the organization will be able to give the advantages of Ada a wider publicity than ever before in her history. Prospective citizens and investors only need to be shown what Ada has to offer and this will enable the Chamber of Commerce to tell them about it. It was this same campaign of boosting that raised Oklahoma City from the level of a big country village when other places had a better chance of outdistancing her in the race for first place. Tulsa, Muskogee and many other western towns have become cities largely because attention was called to the opportunities existing there. Ada has done more than any other city ever did with the limited funds at hand, and now can be depended on to achieve more triumphs than ever before. Ada has never yet started to do anything and failed. The Ada spirit is a bull dog determination to win and thus Ada has won.

A farmer went to the lumber yard and purchased a music stool, taking it home with him in his trap. In a few days, however, he brought it back and demanded the money be paid, as the stool was no good at all.

The storekeeper examined it and said it was in perfect order, and that it should not be thrown on his hands.

"Well," said the farmer, "I took it home careful, and I gave it a turn, and every one of the children gave it a turn, and never a tune could one and all of us screw out of it. It is no more a music stool than the four-legged washing stool the missus puts her tubs on."

"My mind to me a kingdom is," launched out the chap who would rather quote than eat.

"Oh, well," soothed the other, "I shouldn't let that worry me. It's not in danger of invasion for conquest, at any rate."

Expensive Experience.
"So you never make fun of your wife's hats?"

"No, I've got over that."

"You did once, then."

"Yes, and she kept on buying others trying to please me."

No Spot.

"That newly rich family are very pretentious. Have they a clean record?"

"They ought to have. The father was a street cleaner and the mother was a washerwoman."

No Playtime.

"I understand you have quit playing politics."

"Never did play it," replied Senator Sorghum. "With me, politics was always business and hard work."

Time Limited.

Bix—What did your wife say to you when you got home at four o'clock this morning?

Dix (wearily)—Say, old man, I've got some work to do today."

IT WAS NEWS TO HIM.

"I hadn't been able to do a day's work in four years when I began taking Tanlac, but I have gained thirty pounds and am now putting in full time every day," said J. C. Fischer, of Edmond, Oklahoma.

Tanlac.

"I hadn't been able to do a day's work in four years when I began taking Tanlac, but I have gained thirty pounds and am now putting in full time every day," said J. C. Fischer, of Edmond, Oklahoma.

"Four years ago," he continued, "I was taken down with typhoid fever that left me so weak and rundown I could just manage to hobble around on my two canes and it would actually take me an hour to go a block sometimes. I had catarrh badly and it gave me no end of trouble. My appetite was poor, and even the lightest food I could get would upset my stomach. I was miserable night and day and took all kinds of medicines without getting any better.

I began to pick up immediately after I started on Tanlac and after I finished my third bottle, I threw away my canes and went back to work. I kept on taking Tanlac, have now taken five bottles, haven't missed a day's work since—the catarrh has disappeared I can eat just anything I want to, sleep like a log and I sure thank Tanlac for my recovery.

Tanlac is sold in Ada by Gwin & Mays Drug Co.

Dear Cousin Etta—I received your letter a few days ago, but have not had time to answer for I sure have been busy. We were up to the front lines about 1 days, so you see no chance to write.

I've been over the top twice. It is sure exciting. We advanced about 4 or 5 kilometers and I don't know just how many prisoners we captured, but we got a good many of them and a lot of other stuff such as guns, ammunition, cows, horses and a few large cannons.

We only lost two men out of our company and a few wounded. Sherman sure said a mouth full when he said war was H—. I wanted to come over here and be in one battle and now I am satisfied to go back to the Good U. S. A. I sure could tell an awful story if I was back.

I wish I was over there so I could buy some real good candy. We just get a very little good candy. The commissary truck comes out about twice a week then we are only allowed so much stuff. Maybe everybody gets something and maybe they don't but we get our smoking tobacco free; also our writing material and we don't have to stamp our letters so I guess its pretty lucky to be a soldier after all.

I give everybody my best wishes and tell them hello for me. With lots of love and best wishes.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has not been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires a constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the blood on the membranes of the system thereby giving the body strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Coming "Hearts of the World."

It is glorious to be an American. One never appreciates and realizes this fact for all its worth until he has seen David W. Griffith's "Hearts of the World" which is an epic and a picture page of history that will undoubtedly be stored away in the archives of the government for reference and study by future generations. No man or woman with an ounce of patriotism in their soul but will be carried away with enthusiasm and joy and when they see the story of the world's great fight for justice and liberty illuminated on the screen with its beautiful love scene laid on the historic spot of bleeding France. Under the auspices of the British government Mr. Griffith has reproduced scenes of battle and action that will probably never be afforded another dramatist and that are inspiring in their awful truth and realism. With grim war as a background this Shakespeare of the screen has revealed a love story that is so sweet and pretty one almost forgets the terrible circumstances under which it is related.

"Hearts of the World" is D. W. Griffith's supreme achievement. It surpasses anything he has ever presented to an amazed public and only goes to show there is no limit to the creative possibilities of his genius.

"Hearts of the World" is coming to this city soon and if there is any one for fifty miles around who fails to see it they will only have themselves to blame and will never forgive themselves because this production is preferred to the public under circumstances that places it within the range of everybody's purse.

"We pledge our service never to use, and to discourage everywhere, the use of such words as Dago, Dutchy, Froggy, Ginny, Greaser, Heiny, Horwitz, Hunkie, Klike, Mick, Paddy, Sheeny, Spaghettie, Wop, as applied to any foreign-born resident in the United States of America."

FARRE TO FLY FOR SCOUTS.

Lieut. Henri Farre, France's famous artist-aviator, has endeared himself to all scouts by his friendliness whenever he meets any of them. He is in this country on a mission for the French government.

At Atlantic City he presented a war service emblem awarded by the treasury department to Rodney Fitzsimmons, a first-class scout in Troop No. 15, who sold 43 bonds with a total of \$28,000.

Lieutenant Farre promised to fly under scout auspices from Atlantic City to Philadelphia.

MAY START THE WOLF CUBS.

The Boy Scouts of America have taken over the rights to control the copyright privileges of the Wolf Cub literature in this country, and with the approval of Sir Robert Baden-Powell, a small edition of this handbook has been printed in order that the scheme might be carefully studied in accordance with Sir Robert Baden-Powell's recommendation.

Mr. Miles Grigsby.
Dear Sir:—I suppose you have forgotten me, but I am a little lonesome tonight and thought I would write you a few verses and tell you about

some of the interesting things that is happening "over here" but I don't know if it will pass the censor, but if it all doesn't you can guess at the rest. You are aware of the fact that all mail is censored before it leaves here so if part of it is rubbed out don't get excited.

Well, we were bothered with the "kraut eaters" a little this week, but they didn't have any "luck". They came over us in their big bombing planes and planted a few bombs but they were fruitless and too, they planted them in a vacant spot and that is very costly too. One of the large size bombs weigh about 1600 lbs. and knocks a hole in the ground large enough to put a wagon and team in and digs a well in the bottom of it and when they hit the ground they shake the whole earth for a mile square. So you can imagine how much harm they would do to a bunch of Sammies if they were to fall real close. We have some real good hiding places and when one of these Boche planes begin to soar over us at night we put the lights out and crawl in our dug outs and stay until the raid is over and then we proceed. Every precaution is used to prevent accidents and the loss of men. If you have time I would like to hear from you and tell the boys in the shop at an early date if possible.

SUGAR SHOWED OUR BACKBONE

American Willingness to Give Up Luxury Demonstrated Nation's War Conscience.

STAND WITH THE ALLIES.

By Reducing Consumption People of the United States Averted a Famine at Home in Spite of Low Supplies.

The fact that the people of the United States were able to reduce by more than one-half million tons their July, August, September and October consumption of sugar proves conclusively that their war conscience was thoroughly awakened and that the country as a whole stood ready to follow the injunctions of the Government.

Our normal consumption of sugar in the four-month period beginning with July has been 400,000 tons per month, a total of 1,600,000 for the quarter.

In July, when our sugar stringency began to reach its height, consumption was reduced to 260,000 tons. In August only 325,000 tons went into distribution and in September only 270,000 tons. In October the distribution fell to 230,000 tons.

If the general public had failed to observe the injunctions of the Food Administration this country would have been in the throes of a sugar famine before the end of August.

Our visible supplies were so low as to bring great anxiety to those familiar with the sugar situation. They feared that it would be absolutely impossible to reduce consumption to a point where sugar would no longer be a mere luxury in the American diet.

Pew accomplishments of the Food Administration will stand forth so predominantly as this reduced consumption of sugar. By it we have been able to bridge over the period of stringency until the new beet and Louisiana sugar crops were in sight.

Now the nation is, in a position so that if we choose we may return to our normal home use of sugar, and Europe, with the release of ships to go far afield, can maintain its recent restricted rations. If, however, these nations are to increase their use of sugar very considerably it must be by our continued sharing with them through limiting our own consumption one-half in every case.

The restrictive order applying to cement reduced fuel consumption 25 per cent in that industry. The cement industry it was estimated used not less than 8,000,000 tons of coal annually.

ALL RESTRICTIONS ON CEMENT OFF

BRICK PLANTS, TILE PLANTS AND OTHER INDUSTRIES NOW UNFETTERED.

Pursuant to the announced policy of the United States Fuel Administration, of its intention to remove restrictions on the consumption of fuel as speedily as conditions may warrant, Fuel Administrator Garfield has signed orders lifting absolutely all restrictions, laid under previous curtailment orders, upon ornists, window glass, clay products and cement manufacturers. This information was given the press today by State Fuel Administrator, P. A. Norris.

The order permitting these four industrial groups to resume their pre-war status, so far as the burning of coal and other fuel is concerned, became effective Dec. 2.

Under the original orders florists were compelled to reduce their use of fuel to 50 per cent, beginning April 1, last, although subsequently modifications allowed them to use wood in excess of that amount under conditions approved by the Fuel Administration.

Manufacturers of common window glass were limited to 50 per cent in the use of coal. Exports at that time figured that this cut would result in saving a half million tons of coal.

Restrictions on the clay products industry were issued after approval by the War Industries Board. The products dealt with were arranged into classes, and manufacture curtailed as follows: Face brick, common brick, paving brick, terra cotta, roofing tile, floor and wall tile and sanitary ware, each 50 per cent curtailment; hollow tile and drain tile and sewer pipe, each 25 per cent; and, stoneware (except chemical) 15 per cent. Because of an increased supply of bituminous available Administrator Garfield on November 14, last, issued an order reducing the percentages of curtailment on clay products one-half in every case.

The restrictive order applying to cement reduced fuel consumption 25 per cent in that industry. The cement industry it was estimated used not less than 8,000,000 tons of coal annually.

GOODBY, WOMEN'S TROUBLES

AMERICAN SPIRIT RELIED ON TO WIN

In the light of succeeding events it is interesting to recall the confidence with which the United States Food Administrator viewed the gloomy outlook in July of 1917, when this country had been in the war for less than four months and the Germans were steadily sending the western front nearer and nearer to Paris.

"Even though the situation in Europe may be gloomy today," he declared in a public statement, "no American who has knowledge of the results already obtained in every direction need have one atom of fear that democracy will not defend itself in these United States."

LOYALTY IN LITTLE THINGS LAST PROOF OF PATRIOTISM

Americans without murmuring on their sugar allowance from four pounds a month to three and then along as need be to two pounds for safety's sake.

Food Will Win the World.

America earned the gratitude of all the nations during war by sharing food. America under peace may win the world's good will by saving to share.

JONES CHAPEL.

The box supper which came on Dec. 7 was a decided success. The proceeds \$40.02 are to be used in finish paying for our second \$100.00 Liberty bond. We are very proud of our little district, having bought \$200 worth of Liberty bonds since the beginning of the war.

Every one progressing nicely with cotton picking. All expect to pick the last lock before Xmas.

Mr. Bill Johnson and family have just returned from Miami where they spent Thanksgiving. They entertained an unwilling visitor while there, our old enemy, Mr. Flu.

School work has started out, with great interest, being shown by the scholars. Miss Bulen reports the outlook for a very successful term.

Our chicken show was very well represented. Among those who brought chickens was Milton Golden, Wyandottes; Opal Gwaltney, Rhode Island Reds; Mae Smith, Buff Orpingtons; W. W. Norton, Bronze Turkeys. The short talks made by A. Floyd, Supt., Mrs. Kobt. Duvall, Mr. Joseph Hill were appreciated.

W. W. Norton is putting out a large orchard. I presume Jones Chapel will have plenty of fruit in the future.

E. CENTRAL S. A. T. C. UNIT MUSTERED OUT

The S. A. T. C. unit at the East Central Normal was mustered out today and the young men composing it are scattering to their various homes. Some will probably enter the regular work at the Normal.

This unit was organized at the beginning of the school year through the strenuous exertions of President Gordon and the Normal faculty, solidly backed by the chamber of commerce of Ada. It was one of the first in the state to meet the requirements of the war department and be recognized.

The discharges were issued between 11 and 12 this morning. Before dismissing farewell talks were made by Lieutenants Gardner and Teichman in which the men were admonished to continue their pursuit of knowledge as the lieutenants themselves will do. A rousing talk was also made by President Gordon with prayer by Dr. Beck and the following resolutions from the men was read:

Resolutions.

The members of the Students' Army Training Corps of East Central Normal, at a meeting of the company held at the barracks on December 2, 1918, adopted the following resolutions:

WHEREAS, the Government of the United States has ordered that the Students' Army Training Corps be demobilized, and,

WHEREAS, the President and faculty of the East Central Normal and the officers of the post have rendered their untiring services to the organization, in the academic and military instruction and in the general welfare of the company. Now Therefore Be It Resolved,

1. That we, the members of the Students' Army Training Corps of the East Central Normal, do hereby express and extend our sincere thanks and deepest gratitude, to the officers of this Post for their kind consideration and for the faithful and efficient manner in which they have discharged their duty toward us;

2. To the President and faculty of the East Central Normal for their friendship shown, their valuable instruction and the feeling of good fellowship maintained toward us; and,

3. To the citizens of Ada for their hearty support and the many courtesies extended which have made our surroundings so pleasant during our short stay in Ada; and,

4. That a copy of these resolutions be read at Chapel, Tuesday, December 3, 1918, and that a copy be furnished the East Centralite and Ada newspapers for publication.

Signed,

RED CROSS WORKERS NEEDED TOMORROW

The Red Cross wants many surgical dressings workers tomorrow. A shipment is due to leave Ada in a few days, and there is yet some work to be done. A failure to have plenty of workers tomorrow will delay the shipment. Mrs. Sneed insists that time is precious and delay may mean suffering which could be relieved.

YOUNG PEOPLE MAKING RECORDS AT SHOWS

Mrs. Elva Roberts Durrall, who has charge of the girls' club work of the county, and J. B. Hill, who has charge of the boys' club work, are busy this week, visiting the poultry shows at the various rural school houses. Already shows have been held at Oakman, Lawrence, Franks, Frisco, Vanoss, and Center. They will be held, this week at Francis, Rocky Chapel, Galey, Paris Chapel, Happy Land, Steedman, Hall's Hill, Red Oak and Brookhaven.

Mrs. Duvall and Mr. Hill say that these shows are creating much interest, and the fowls shown are birds of a high class. The law under which these shows are held provides that each district may appropriate a certain amount of money for poultry shows to be held in November or December and egg shows in February. The premiums are so arranged that every boy or girl taking part will get a part of the premium money.

MRS. W. J. CURLIN DIES OF PNEUMONIA

Mrs. W. J. Curlin, aged 29, died at the family home, one mile south of Ada Monday morning at 11 o'clock. The funeral services were conducted at Rosedale cemetery this afternoon by Revs. Duan and Grimes.

Deceased was formerly Miss Ivey Kiersey and was the daughter of Mr. and Mrs. L. D. Kiersey, pioneer residents of this place. She taught several years most successfully in the schools of Pontotoc county and her friends are to be found in almost every community.

Her death, coming as it did when she was at the very prime of her womanhood, is the cause of deep regret to all of her friends and a hard blow to her husband and family.

JOHNSON REPLIES TO NEWS EDITORIAL

In reply to the editorial "The New Gas Rates". The criticism of the MacThwaite Company in not taking the public into its confidence seems hardly fair when the following facts can be very easily proven.

First: That when the management finally decided it was absolutely necessary to have an increase in revenue, in order to continue the distribution of gas in Ada and maintain adequate service, copies of the petition were handed, not only to the mayor of the city, but also to the secretary of the Chamber of Commerce.

Second: A mass meeting was called on the 24th day of September at the county court house for the purpose of explaining to the people the necessity of an increased revenue to the gas company.

To this meeting many of the representative men of this city were invited by personal invitation and were told that the facts and figures would be laid before them there and the necessity of the raise in rates explained to their satisfaction.

This mass meeting was held and a representative of the MacThwaite Company went into a detailed account of the facts and figures and answered all questions that the citizens asked and further offered access to the books and records of the company if there was any doubt as to the conditions or figures.

A number of citizens attended this meeting and among them was the mayor and a representative of the Chamber of Commerce and the Ada News.

Third: That at the hearing before the Corporation Commission at Oklahoma City the town was represented by the mayor, Mr. Conger, the city attorney, Mr. J. W. Dean, the laundry by Mr. E. S. Ratliff, and the Ada Electric Co. by former Commissioner Henshaw.

H. D. JOHNSON.
We are pleased to give the MacThwaite Oil and Gas Company the opportunity to make the above statement. There is no disposition on the part of The News to do injustice to any individual or any corporation, and we always stand ready to print a reply to opinion given by us, when the reply is given in the same spirit in which the opinion is expressed.

Here is a proposition, however, that the MacThwaite Company will do well to consider, if not for present use, at least for future use. The people of Ada as a whole are not convinced that the company needs a boost in the rate. We feel certain the company will agree to this statement. Then one of three things is true: the company has not brought the facts before the citizens of Ada in such a way as to convince them of the necessity of a higher rate, the citizens of the town are unreasonable and are demanding that the MacThwaite Company sell its product for less than its cost, or the company does not need a higher rate. The News certainly will not agree that the citizens of the town are unreasonable and are demanding that the company sell gas for less than cost. This leaves only two alternatives, either the company does not need a raise or it has not brought the matter properly to the attention of the public; in other words, has not taken the public into its confidence of the purported facts.
